

DISTRICT 181 FOUNDATION AMBASSADOR AND EMERTIUS BOARD MEMBER PROGRAMS

District 181 Foundation Ambassador Program

Goal

To create a dedicated team of D181 parents and community members who are passionate about education and are willing to leverage their networks and social media platforms to increase visibility for the D181 Foundation.

Target Number of Ambassadors

Our target number of Ambassadors is nine (one from each D181 school)

Description

District 181 Foundation Ambassadors are a team of parents and community members who share our passion for enhancing the educational experience for students in Community Consolidated School District 181. Our Ambassadors help spread the word about the programs and services the Foundation supports, and the valuable resources and information our organization delivers to parents, educators and the community. Our Ambassadors are also key to helping us raise funds that increase the number of educational and enrichment opportunities for students and educators that would otherwise be limited or not available to them.

What is the role of a District 181 Foundation Ambassador?

1. Follow the D181 Foundation (@d181foundation) on Facebook, Twitter and Instagram.
2. Actively promote and share D181 Foundation news and social media posts.
3. Introduce your network to the D181 Foundation and inform them about how they can contribute and donate to our organization.
4. While you are not required to attend D181 events, we welcome you to volunteer and attend any event you wish whether that is part of the Community Speaker Series or a D181 student program.
5. The Foundation will list our Ambassadors on a dedicated section of the organization's website.

*D181 Foundation Ambassadors will not attend Board meetings, have voting rights for official D181 Foundation items or be part of dedicated Foundation committees. The Foundation will welcome Ambassadors to share ideas for increasing visibility within the community, further building our donor network and potential fundraising opportunities.
